

Innovative Broadcast and Event Production Solutions

IRONMAN Group

Rock 'n' Roll Marathon Series

IRONMAN Group - Rock 'n' Roll Marathon Series

For live race coverage of the **Rock 'n' Roll Marathon Series**, CP provided:

- Four custom modified and branded **Smart Cars**
- **Mobile Viewpoint Agile Airlink** bonded cellular encoders
- **Sonim** phones running **Unity Intercom**
- **Network Operations Center** remote management

Getting ready in Arizona – January 2020

IRONMAN Group - Rock 'n' Roll Marathon Series

Each Smart Car is equipped with a **Mobile Viewpoint** Agile Airlink bonded cellular H.265 encoder.

Custom rooftop-mounted cellular antenna arrays were made for each **Smart Car** for maximum signal strength.

IRONMAN Group - Rock 'n' Roll Marathon Series

Custom Smart Car branding for the series.

Delivery via  RED HOUSE TRANSPORT

IRONMAN Group - Rock 'n' Roll Marathon Series

Sonim XP8 phones were used with Unity Intercom for cellular based comms for the drivers and camera operators to communicate with the IRONMAN studio in Tampa.

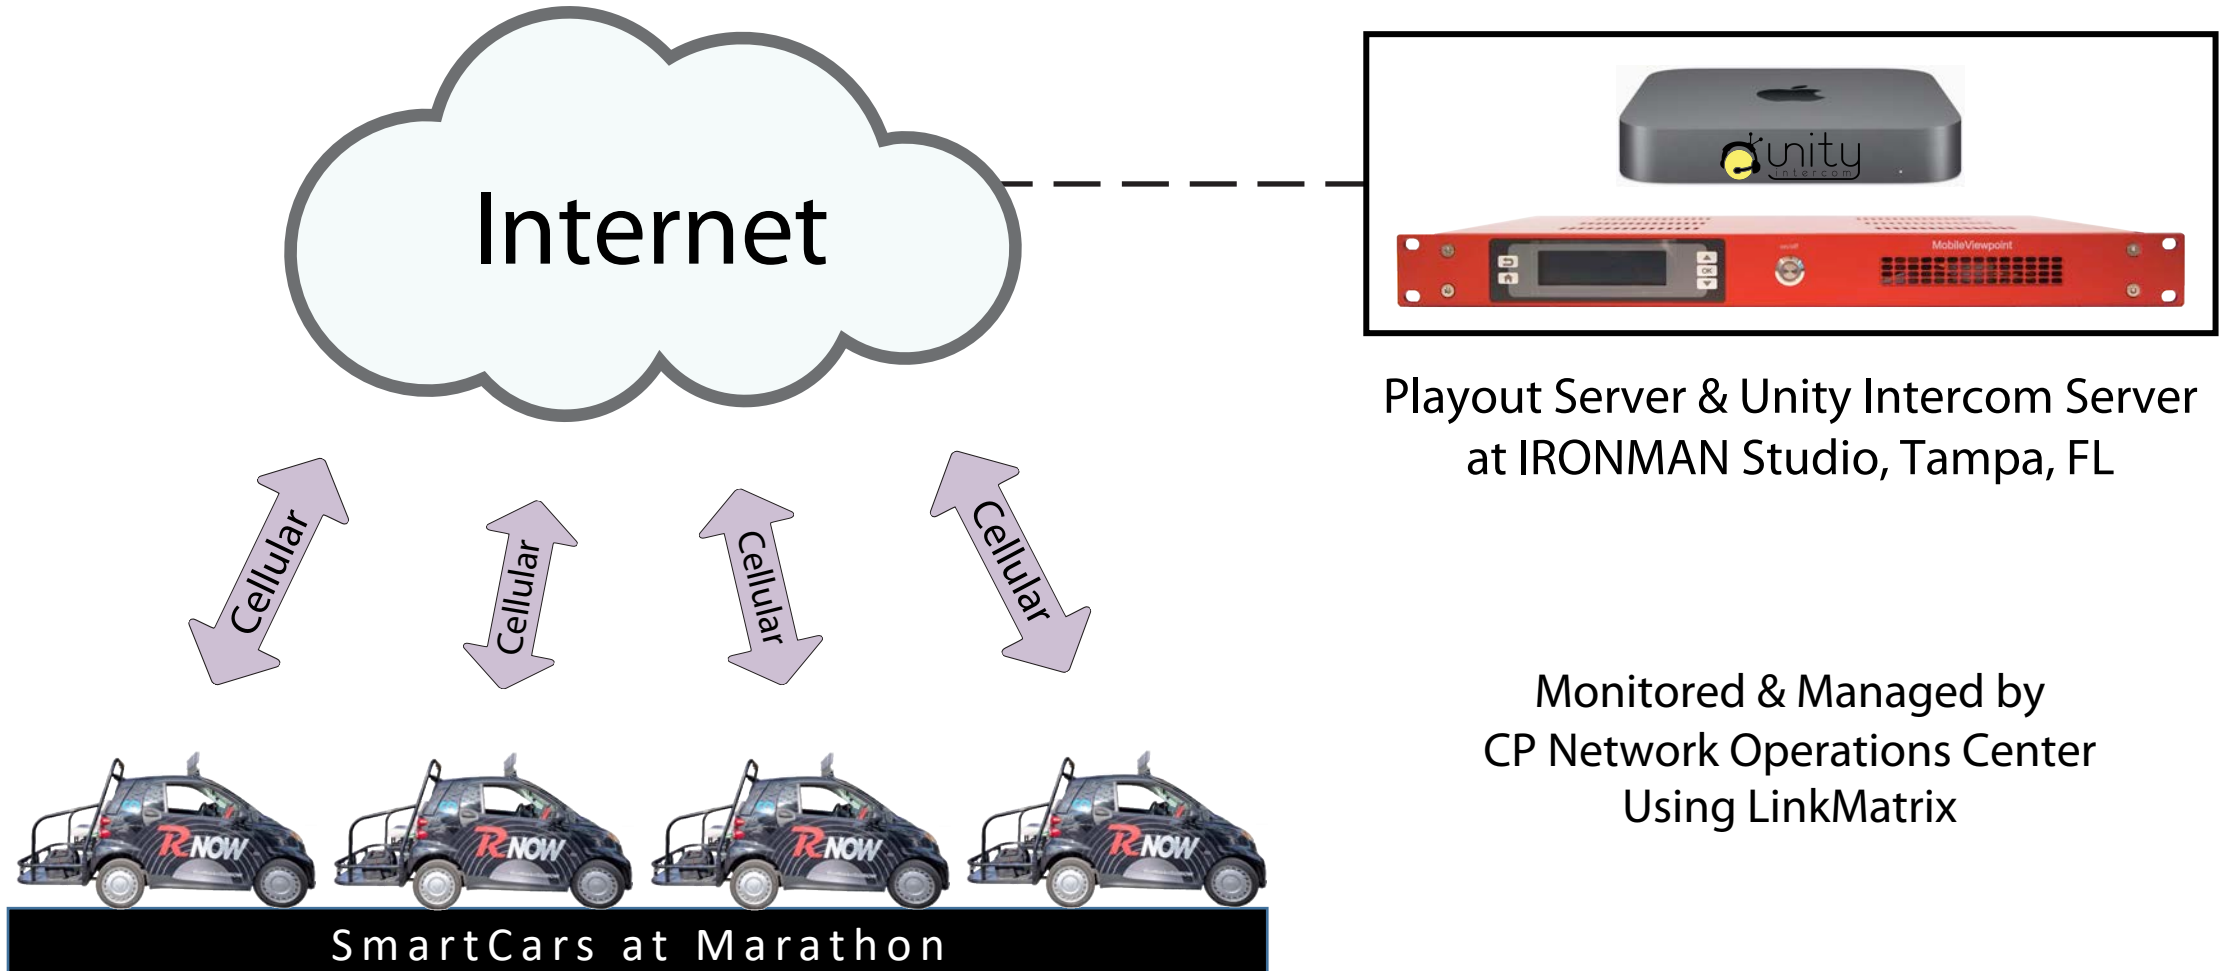

IRONMAN Group - Rock 'n' Roll Marathon Series

Everything in the field connects via IP to IRONMAN Group's new CP designed streaming media studio and control room, enabling live coverage of its branded multisport and marathon events over-the-top (OTT) via its website and Facebook Watch.
